IELTS READING TEST INTRODUCTION

- The reading test **comes after the listening test**. It is the second section of the IELTS test.
- The reading test lasts **60 minutes** (do not get a break).
- There are **3 sections** (each section has 13 or 14 questions)
- There are **40 questions** in total.
- **No extra time is given** to transfer your answers from the questions to the answer sheet. Therefore, you have to complete the answer sheet within the 60 minutes.
- You must **use a pencil** to write answers on the Answer Sheet because it is scanned by a computer. That's the same as the IELTS listening test.
- There is **a wide variety of tasks** candidates may have to complete.

IELTS READING MARKING AND ASSESSMENT

- The scores are calculated by the number of correct answers you have. There are **40 questions** which are equivalent to **40 points**. Each time you get a correct answer, you get 1 point (no 1/2 points). That is how your band scores are calculated.
- You have to **follow the Instructions exactly** (e.g. must stay within word/number limit).
- **Spelling and grammar must be correct** (*e.g. singular or plural; use the correct form of the words*) . You will lose marks if you misspell a word or if you put a word in the wrong grammatical form.
- There is no deduction for a wrong answer - so if you're not sure, guess!
- **IELTS reading scores**

According to official IELTS guidelines:

Band 5.5 = 20 – 22 correct answers.

Band 6.0 = 23 – 26 correct answers.

Band 6.5 = 27 – 29 correct answers.

Band 7.0 = 30 – 32 correct answers.

Band 7.5 = 33 – 34 correct answers.

Band 8.0 = 35 – 37 correct answers.

Band 8.5 = 38 – 39 correct answers.

PRIMARY SKILLS NEEDED

- Searching and underlining key words.
- Looking for synonyms and parallel expressions.
- Skimming (reading the text very quickly).
- Scanning (looking for something without reading).
- Reading for specific information.

IELTS READING QUESTION TYPES

Matching Headings: you are asked to select headings of paragraphs and match them to the relevant paragraphs from a text. Matching headings is often one of the most difficult question types for Students. Why? The main reason is that the headings are usually very similar to each other. Also, you have more headings than you need for the question.

Questions 1 – 5

Sample Passage 6 has six sections, A-F.

Choose the correct heading for sections A-D and F from the list of headings below.

Write the correct number I-ix in boxes 1-5 on your answer sheet.

List of Headings	
i	The probable effects of the new international trade agreement
ii	The environmental impact of modern farming
iii	Farming and soil erosion
iv	The effects of government policy in rich countries
v	Governments and management of the environment
vi	The effects of government policy in poor countries
vii	Farming and food output
viii	The effects of government policy on food output
ix	The new prospects for world trade

1 Section A

2 Section B

3 Section C

4 Section D

Example Section E vi

5 Section F

Matching Headings Tips:

1. Do this type of question first if it is on the test. By doing this, you will have a chance to get the general meaning of the text as a whole. This will help you with the rest of the questions that require you to take a more detailed look at the text.
2. Check how many questions you need to answer.
3. Do not use any answer more than once.
4. Do not need to read the whole text.
5. Read the headings first and think about the topic of the text. Then, read the first, second and last sentences of the paragraph to understand the general meaning of the paragraph.

6. Identify and underline keywords within each heading
7. Try to look for synonyms or other words that have a similar meaning to words or phrases in the headings so you can rule out the correct answer.

Matching Information to Paragraphs: you will be asked to match statements in a list to corresponding paragraphs in the reading text. The match information task has been designed to test your ability to find specific information in the passage of text. In other words, this task focuses on your ability to locate specific information. You might be asked to find specific details, for example, a reason, a description, a comparison, a summary, a fact, or an explanation.

Questions 14 – 19

Sample Passage 7 has eight paragraphs labelled A-H.

Which paragraphs contains the following information?

*Write the correct letter A-H in boxes 14-19 on your answer sheet.
NB You may use any letter more than once.*

- 14 a comparison of past and present transportation methods
- 15 how driving habits contribute to road problems
- 16 the relative merits of cars and public transport
- 17 the writer's prediction on future solutions
- 18 the increasing use of motor vehicles
- 19 the impact of the car on city development

Questions 1–6

This reading passage has eight paragraphs, A-H.

Which paragraph contains the following information?

- 1. An explanation of how adjustments are made when navigating
- 2. Recent news about how navigation systems work
- 3. A comparison of tracking abilities
- 4. A study showing that scent and sound are not important
- 5. Explaining the importance of counting
- 6. A description of how ants navigate

Matching Information Tips:

1. Do this type of question last. You will be able to look for the correct information and the right answers more quickly and easily if you do other

questions first since you were familiar with the passage.

- 2.** Read the title of the passage.
- 3.** Read the instructions carefully.
- 4.** Look for and underline keywords, and highlight the kinds of information you need to find for each statement given such as a definition, a number, a name, an example or a description.
- 5.** Use paraphrasing skill to look for words that have similar meaning. Take notes for synonym or antonyms. This will help you identify the correct answer.
- 6.** All paragraphs contain an answer and some paragraphs contain more than one answer. Therefore, you may use any letter more than once. That means you might find the answer to different questions in the same paragraph.
- 7.** The questions are not in the same order as the information in the passage.

Multiple-Choice Questions: one question is given to you followed by four or five choices in which you have to choose the best one which will fit your answer.

Questions 10 – 12

Choose the appropriate letters A, B, C or D.

Write your answers in boxes 10-12 on your answer sheet.

- 10 Research completed in 1982 found that in the United States soil erosion

- A reduced the productivity of farmland by 20 per cent.
- B was almost as severe as in India and China.
- C was causing significant damage to 20 per cent of farmland.
- D could be reduced by converting cultivated land to meadow or forest.

- 11 By the mid-1980s, farmers in Denmark

- A used 50 per cent less fertiliser than Dutch farmers.
- B used twice as much fertiliser as they had in 1960.
- C applied fertiliser much more frequently than in 1960.
- D more than doubled the amount of pesticide they used in just 3 years.

- 12 Which one of the following increased in New Zealand after 1984?

- A farm incomes
- B use of fertiliser
- C over-stocking
- D farm diversification

Multiple-Choice Tips:

1. Read the instructions carefully, skim all the questions briefly to get an idea of the topics for which you will be searching when reading the text.
2. Try to predict the right answer before you read the text.
3. In multiple choice questions, remember to use the keywords in the question to help you find the right part of the text. Read that part again and consider all the options one by one.
4. Match the keywords in the question to their associated paragraph in the text. You need to know where to read to find the correct answer.
5. Locate the particular section of the paragraph in which the important information is located to find the answer.
6. You don't need to read the entire text from beginning to end because the questions follow the same order as the paragraphs.
7. The keyword you see in the question may not be written exactly the same as it is in the paragraph.

8. Only read the particular section of the paragraph which directly relates back to the question after you match the keyword or the synonym from the question to the corresponding paragraph.

Summary Completion: you will be given a summary of information from the text and there will be some gaps in that summary. You will either be given a list of words to fill the gaps with or asked to find the answers in the reading text. Your job is to insert some of the words from the list into the gaps; or if you are asked to fill the gaps with words from the text, there will be more words in the list that are required to fill the gaps. All of the information contained in the summary will also be contained in the reading text but they will use **synonyms** and **paraphrasing**. Therefore, don't expect to see the same words. The summary may relate to the whole passage or only a part of it and the text of the summary will follow the order of the text of the passage.

Questions 1-6

Complete the summary below.

Choose no more than two words from the passage for each answer.

SUMMARY COMPLETION

The Main Functions of the Police

The police are persons empowered to enforce the law, protect property and reduce 1..... Their powers include the 2..... use of force. The term is most commonly associated with police services of a state that are authorized to exercise the police power of that state within a defined legal or 3..... area of responsibility. Police forces are often defined as organizations separate from any 4....., or other organizations involved in the 5..... of the state against 6.....

In other Summary Completion exercises in the IELTS Reading Test, candidates are required to choose words from a box in order to complete the task. There will be more words than spaces and they are usually different words from the ones in the passage. This tests a candidate's ability to recognise synonyms and paraphrase.

Complete the summary below.

Choose ONE WORD ONLY from the passage for each answer.

Write your answers in boxes 24–26 on your answer sheet.

How children acquire a sense of identity

First, children come to realise that they can have an effect on the world around them, for example by handling objects, or causing the image to move when they face a 24 This aspect of self-awareness is difficult to research directly, because of 25 problems.

Secondly, children start to become aware of how they are viewed by others. One important stage in this process is the visual recognition of themselves which usually occurs when they reach the age of two. In Western societies at least, the development of self awareness is often linked to a sense of 26, and can lead to disputes.

Questions 18–22

Complete the summary using the list of words, A–I, below.

Write the correct letter, A–I, in boxes 18–22 on your answer sheet.

Weather during the Little Ice Age

Documentation of past weather conditions is limited: our main sources of knowledge of conditions in the distant past are 18 and 19 We can deduce that the Little Ice Age was a time of 20 , rather than of consistent freezing. Within it there were some periods of very cold winters, others of 21 and heavy rain, and yet others that saw 22 with no rain at all.

- | | | |
|-------------------|----------------|------------------------|
| A climatic shifts | B ice cores | C tree rings |
| D glaciers | E interactions | F weather observations |
| G heat waves | H storms | I written accounts |

Summary Completion Tips:

1. Read the instructions to the questions very carefully.
2. Skim through the summary. Ignoring the blanks to understand its general meaning.
3. Predict the right answers before looking at the options.
4. Don't waste time looking at parts of the passage that are not included in the summary.
5. You need to focus on keywords before and after the blank.
6. Check with the passage. You can use your keyword strategy to identify the correct part of the passage but remember you are looking for synonyms.
7. Check to see if your word is grammatical. Think about nouns, adjectives, verbs, and adverbs.
8. The answers are mostly in order. Sometimes they'll all be in order; but once in a while, there will be an answer that comes before another answer. However, don't worry about this because the keywords are specific and easy to find.

Completion Tasks:

These tasks are note completion, flowchart completion, sentence completion, table completion, and summary completion tasks.

Completion Tasks Tips:

Here are some basic tips that you need to learn to deal with this type of question excellently:

1. There will be a words limit, so please read the instructions carefully and see the words limit that you need to write in order to fill in the gaps. There will be usually *NO MORE THAN ONE WORDS*, *TWO WORDS* or *THREE WORDS*, so underline this and remember while you fill in the exercise.
2. Secondly, usually for most tasks in IELTS reading, the questions in the tasks and the gaps are followed in the same order as they will appear in the text. However, please remember and keep in mind that when you see a completion task, the questions and the gaps will not necessarily follow the order that they will be shown in the text.
3. You should copy the words that you find in the text exactly the same way in order to fill in the gaps. Hence, they have to both fit grammatically and syntactically.
4. Try to predict what kind of words are missing, for example, a noun, a verb, an adjective or an adverb. The words before and after the gap help you understand what is missing.
5. You should underline key words that precede gaps. These keywords are going to guide you through the text in order to find where the correct answer is located. You should be careful of paraphrasing.
6. In IELTS, you should always concentrate on meanings, not on words. That is always helpful to be good at skimming and scanning techniques.

Note Completion:

Choose **NO MORE THAN ONE WORD AND/OR A NUMBER** from the passage.

Blombos Cave discovery

Questions 38 – 40

Complete the sentences below.

Choose NO MORE THAN TWO WORDS from the text for each answer.

Write your answers in boxes 38-40 on your answer sheet.

38 Von Frisch discovered the difference between dance types by changing the position
of the

39 The dance outside the hive points in the direction of the

40 The angle of the dance from the vertical shows the angle of the food from the
.....

Flow-Chart Completion:

Question 33-40

Complete the flow-chart below.
Choose NO MORE THAN THREE WORDS from the text for each answer.
Write your answers in boxes 33-40 on your answer sheet.

Classification Type: you need to classify the information you read in the passage. In other words, you need to sort statements or features into different categories. There are always 3 categories and these categories are of the same type. You are also given several numbered statements or features. Each category is given a letter. So on your answer sheet, you need to write a letter, A, B, or C.

Questions 1-9

Classify the following statements as referring to

- A Charlie Moore
- B Lewis Williams
- C Emily Cope

Write the appropriate letters A, B or C in boxes 1-9 on your answer sheet.

- 1) British people don't appreciate art because they don't see enough art around them all the time.
- 2) British museums aim to appeal to popular tastes in art.
- 3) The average Englishman likes the works of Turner and Constable.
- 4) Britain, like every other country, has its own view of what art is.
- 5) In Britain, interest in art is mainly limited to traditional forms such as representational painting.
- 6) British art has always been affected by other cultures.
- 7) Galleries in other countries are of better quality than those in Britain.
- 8) People are not raised to appreciate art.
- 9) The British have a limited knowledge of art.

Classification Tips:

1. Always be sure to read the instructions first.
2. Skim the reading text to get its general meaning.
3. Search for and underline the “**keywords**” in the statements. Usually, some of words in the questions have the same meaning to words in the passage. You will probably find the answer if you find the similar words.
4. It is important to note that, in classification tasks, the questions will not be in the same order as you read them in the passage. Therefore, it's a good idea to circle information that you'll need later.
5. Some letters, or categories may be used more than once while some letters may not be used at all.

6. Always give an answer even if you are unsure. You won't lose marks if the answer is wrong and you may just get it right.

Matching Sentence Endings: you are going to be given a list of incomplete sentences and another list with possible endings. Your job is to choose the correct ending for each sentence based on the reading text. This means you will have to choose their ending correctly based on a number of options. All options are going to have similar meanings, so this is what makes this task rather challenging. However, the good news is that the sentences in the task will appear in the order that they will appear in the text; so you will know where to find each piece of information that each sentence conveys while you scan through the text.

Complete each sentence with the correct ending A-J from the box below.
Write only the letter. You do not need to use all of the sentence endings.

1. Strawberries may help to choose one
2. In non-human tests fisetin was shown choose one
3. Specialists believe choose one
4. Fisetin has choose one
5. Maher wants to soon begin choose one
6. Alzheimer's is choose one
7. Almost a quarter of the world's population is predicted choose one
8. A reduction in the number of cases of cognitive diseases suffered by the elderly will reduce choose one
 - A. to be over the age of 60 by the year 2050.
 - B. may be described as a new superfood.
 - C. to reduce swelling of an organ.
 - D. an increasing problem around the world.
 - E. been studied for over 10 years.
 - F. more testing should be carried out to find out the benefits of fisetin.
 - G. the predicted burden on health services in the future.
 - H. cure diseases suffered by the elderly.
 - I. controlled testing of fisetin on people.
 - J. are highly toxic.

Matching Sentence Tips:

1. Read the sentences and underline keywords. Especially those phrases that are hard to be paraphrased. These underlined words and phrases will help you and guide you to find the answer in the text through scanning.
2. When highlighting keywords, it is often a good idea to highlight any names including place names or dates. These are often easy to find in the reading text.
3. Read the incomplete sentences first and try to predict how each sentence will end before you look at the endings or the text.

4. Go to the text and scan the text in order to locate where this piece of information that the sentence states.
5. Read the piece of information that you found in the text. It may be a whole paragraph, so you need to read this piece of information carefully and then choose the right option.
6. Make sure that the option that you have chosen fits the first half of the sentence not only in grammar and syntax but also in the meaning that the sentence tries to express.
7. The answers are in the same order in a text as they are in the questions.

Yes, No, Not Given Questions: the YES, NO, NOT GIVEN questions are all about the writer's opinion. It's not about the facts but about what the writer thinks. If the answer is YES , it means that the statement in the question agrees with the claims of the writer. If the answer is NO , it means the statement is opposite; it contradicts the claims of the writer. NOT GIVEN means it is impossible to say what the writer thinks about.

Questions 32–35

Do the following statements agree with the claims of the writer in Reading Passage 3?

In boxes 32–35 on your answer sheet, write

YES	if the statement agrees with the claims of the writer
NO	if the statement contradicts the claims of the writer
NOT GIVEN	if it is impossible to say what the writer thinks about this

- 32 Helium chooses to be on its own.
33 Helium is a very cold substance.
34 High-tech industries in Asia use more helium than laboratories and manufacturers in other parts of the world.
35 The US Congress understood the possible consequences of the HPA.

Yes, No, Not Given Tips:

1. Ignore anything you already know about the topic and don't make assumptions. Based your answers on the text only.
2. Identify any words that qualify the statement. For example, *some*, *all*, *mainly*, *often*, *always* and *occasionally* . These words are there to test if you have read the whole statement because they can change the meaning. Be careful.
3. When you see verbs that qualify statements such as *know*, *suggest*, *claim*, *and believe* . For example, “*the woman claimed she was a doctor*” and “*the women is a doctor*” mean they are different.
4. Don't skim and scan the text. To find the correct answer, you will have to read the appropriate part of the text very carefully in order to understand what the writer means.
5. Don't look for words that exactly match those in the statements. Instead, you should look for synonyms.

6. If you can't find the information you are looking for, then it is probably **NOT GIVEN**. Don't waste time looking for something that is not there.
7. Answers are in the same order they appear in the text. Do not waste time going back.

True, False, Not Given Questions: you will be given a number of factual statements and you have to check in the text if they are true, false or not given. The **TRUE, FALSE, NOT GIVEN** questions are all about factual information in the passage. It's not about opinions; it's about **fact**. **TRUE** means that the statement in the question agrees with the information in the passage. **FALSE** means the statement in the question contradicts the information in the Passage (“*contradicts*” means it’s the opposite meaning). **NOT GIVEN** means there is no information on this. This task is used to assess the candidate's ability to find the particular information found in the passage.

Questions 1 – 8

Do the following statements agree with the information given in the text?

In boxes 1-8 on your answer sheet, write

TRUE *if the statement agrees with the information*
FALSE *if the statement contradicts the information*
NOT GIVEN *if there is no information on this*

- 1 You should not arrive more than half an hour before your allocated starting time.
- 2 Your Rider Identity Card will be sent to you before the event.
- 3 Some roads may have normal traffic flow on them.
- 4 Helmets are compulsory for all participants.
- 5 Refreshments are free to all participants during the ride.
- 6 If you need a rest you must get off the road.
- 7 First aid staff can provide cycle capes.
- 8 Bike Events will charge you for the return of your bike.

True, False, Not Given Tips:

1. Read the instructions carefully and make sure you know if it is a **true/false/ not given** question.
2. Read all the statements carefully. Trying to understand what the whole sentence means rather than simply highlighting keywords.
3. You need to find the right part of the text before you can answer the question. Remember that the questions follow the text.
4. Finding key ideas in the text.
5. Look for **expressions of uncertainty** . Look for modal verbs like *could*, *might*, or *must* . Look for expressions which indicate **uncertainty** , such

as *suggest*, *think*, *claim*, *believe*, and *know*. For example, *it is thought that* or *many scientists believe that* .

6. If you can't find the answer or if you are really unsure, mark it as **NOT GIVEN** and move on to the next question.
7. If the question in the reading test is **TRUE**, **FALSE**, **NOT GIVEN** , you must remember to write **TRUE** or **FALSE** or **NOT GIVEN** on your answer sheet; you **can't** write YES or NO. That means if the answer is **TRUE** and you write **YES** , the answer will be marked wrong.
8. You can write **a letter** instead of **a word** for your answer. That means if your answer is **TRUE**, you can write only **T** . It still means true and IELTS will give you a correct answer for that one point.

Short Answer Questions: where you have to give a very short answer with a maximum of three words or a number. Here is a sample question.

Answer the questions below.

*Choose **NO MORE THAN THREE WORDS AND/OR A NUMBER** from the passage for each answer.*

Write your answers in boxes 18-20 on your answer sheet.

- 18 What is the life expectancy of Earth?
- 19 What kind of signals from other intelligent civilisations are SETI scientists searching for?
- 20 How many stars are the world's most powerful radio telescopes searching?

Answer the questions below.

*Choose **NO MORE THAN TWO WORDS** from the passage for each answer.*

Write your answers in boxes 8-13 on your answer sheet.

- 8 Before Perkin's discovery, with what group in society was the colour purple associated?
- 9 What potential did Perkin immediately understand that his new dye had?
- 10 What was the name finally used to refer to the first colour Perkin invented?
- 11 What was the name of the person Perkin consulted before setting up his own dye works?

Short Answer Questions Tips:

1. You don't have to read every word of the text. The questions test your ability to skim and scan for specific information, so you won't have time to read every word.
2. The answers appear in the same order of the text.
3. Skim and scan the passage quickly and understand the overall meaning.
4. Look at and understand the questions first before you start reading the text.
5. Make sure you don't go over the word limit as stated above the answers.
6. Don't give your opinion, just the answer in the text.
7. Read the instructions carefully and note the word limit.

- 8.** Read and understand the questions. Think about the information you will need to find.
- 9.** Underline any keywords in the questions. Think about synonyms or paraphrases for these keywords.
- 10.** Read the section containing the answer carefully and identify the right answer.

TIPS TO IMPROVE YOUR READING SKILL

- 1.** Reading a lot (no shortcut). You will only be able to improve your reading skill with time and practice. Doing more reading about subjects that you are interested in.
- 2.** Reading a lot of IELTS passages in the Cambridge books.
- 3.** Analyzing each passage carefully, finding the 'keywords', understanding each passage, and finding the correct answer to each question.
- 4.** Analyzing your mistakes and the correct answers.

IELTS READING STRATEGIES

Here is a list of IELTS reading strategies:

1. Because the time for IELTS reading test is limited, you don't spend too much time reading the whole text. Do not read word for word everything you see. You don't have to understand everything.
2. Just go straight to read the questions first, and then read the passage.
3. Use skills such as skimming and scanning to quickly read for the main idea or look for keywords or look for specific detail like numbers, names or dates.
4. There are three passages in the IELTS test. The first passage is the easiest, then the second passage and then the third passage. Since the first passage is easier, it's a good idea to spend less time on this one.
5. Don't waste time on difficult questions. Do easier sections first, and do difficult sections later.
6. Read all instructions carefully. Especially for questions which require you to answer in *NO MORE THAN THREE WORDS OR A NUMBER* .
7. Most of the answers to questions are in the correct order in the passage, so you don't need to go back to the beginning to find the next answer.
8. Search for and underline the “**keywords**” . Usually, some of words in the questions have the same meaning to words in the passage. For example, if the passage includes the words “*towns and cities* ”, “*elderly people*” , the question might use the words “*urban*”, “*senior citizens*” . Therefore, you will probably find the answer if you find the similar words.
9. Circling transitional words and phrases when you look for details such as “*in contrast*”, “*however*” in order to ensure that these words and phrases **work as a sign** that important information may appear before or after them.

10. Predict the correct answer.
11. Find the right part of the passage quickly. Read that part carefully. Read the sentences before and after the keywords that you have found to look for the correct answer.
12. IELTS is very big on paraphrasing and using a range of different language for the same meaning. Therefore, when you look at questions or statements, you do need to think about possible paraphrases. That will help you identify where the answer is and to actually get the right answer.
13. Common traps: one of the common traps you need to know is **COMPARISONS**. If you see a comparative sentence in the question “*more or less than*”, make sure you also find a comparison in the passage to find the correct answer.
14. Also look for these types of words: if they say “*all*” and the question says “*some*”, that’s not a match. Likewise, if they say “*the majority*” and the question says “*some*”, that’s also not a match. This is really testing your ability to understand the exact difference and the exact meaning of words.
15. Don’t “**over-think**” the answer. Many students get the wrong answer simply because they think too hard about small differences in meaning.
16. Time management: you will have **60 minutes** for the reading test with **40 questions** in total. Therefore, you need to manage your time wisely.
17. Transfer your answers from the question sheet to your answer sheet carefully. When you transfer your answers to the answer sheet, don’t get your answers mixed up spelling and grammar or you will lose points here. Don’t be in a hurry. Be careful to check and double-check. If your writing is unclear, your answer will be marked wrong.
